

## Background

The Department of Energy (DOE) Fire Protection Program is multi-faceted—it includes a highly trained staff of fire safety and emergency response professionals, a body of fire safety directives, fire research initiatives, training activities, electronic information sharing resources, and other features. This program has achieved one of the lowest fire loss rates as compared to other Government agencies and private industry.

DOE has been a leader in the application of innovative fire safety management techniques, including the adoption of performance-based fire safety requirements, risk-based inspection, testing and maintenance activities, and the use of the Internet for information exchange.

## Purpose of this Web Site

The DOE Fire Protection Program Web Site provides the following:

- @ Access to fire safety directives that include standards, the DOE Fire Safety Handbook, and the Implementation Guide for the DOE Fire Safety Program.
- @ Access to the Code of Federal Regulations (CFR) in regards to specific requirements related to fire safety.
- @ Access to "model" DOE Fire Protection Program documents.
- @ Access to the Fire Protection Program Newsletter and Directory.

## Key Features

### @ Requirements and Guidelines

Provides major resources and information placed in one location. Resources featured include:

- Code of Federal Regulations (CFR)
- DOE Directives
- Principle Orders
- Related Orders
- Technical Standards
- Guidance
- Model Program documents
- National Fire Protection Association link

### @ Other Information Sources

Provides additional information of interest on the Fire Protection Program. Items featured include:

- Fire Protection Directory
- Annual Summary of Fire Protection Programs
- Listserver
- Fire Protection Program Newsletter
- Conferences and Training

## Access

The DOE Fire Protection Program Web Site is accessible through the ES&H Technical Information Services Web Site (ES&H TIS), at:

<http://tis.eh.doe.gov/fire/>

## For More Information

For technical information please call the ES&H Helpline at:

301-903-8358 • 1-800-473-4375  
M-F 7:30 a.m. to 7:00 p.m. EST

or send e-mail to:
